

Cable Cubby 1402

CABLE ACCESS ENCLOSURE FOR AV CONNECTIVITY,
REMOTE CONTROL, AND POWER

The **Cable Cubby® 1402** is a double-sided, furniture-mountable cable access enclosure for AV connectivity, remote control, and power. The redesigned enclosure is 2" shorter than the previous model, providing increased under-table clearance. Ideal for applications that require a central enclosure, each side accommodates one AC or AC+USB series power module and includes mounting brackets for cable retractor modules, AV cables, or AAP™ AV Connectivity Modules. The Cable Cubby 1402 features an integrated clamp system that secures the enclosure without additional parts or tools.

- ▶ Accommodates one AC or AC+USB power module, plus three Retractor modules, eight AV cables, or three AAP AV Connectivity Modules, per side
- ▶ Slim, double-sided enclosure is 2" (51 mm) shorter than previous model, making it ideal for conference tables, desks, lecterns, and other work areas where space is at a premium
- ▶ Patented modular design for fast assembly and serviceability
- ▶ Retractor Bracket, Cable Pass-Through Bracket, and AAP Bracket included; Retractor modules, cables, and AAP modules sold separately
- ▶ AC power and AC+USB power modules are available for US, Europe, and other major world markets

DESCRIPTION

The **Cable Cubby® 1402** comes equipped with a number of Extron-exclusive, integration friendly features for fast assembly and installation. The integrated clamp system quickly secures the enclosure to the furniture surface without tools. A lid damper ensures smooth, quiet operation. The enclosure's shortened height beneath the table is ideal for semi-permanent folding tables in modular spaces. The Cable Cubby 1402 includes standard connectivity brackets for mounting up to three Retractor modules, three AAP modules, or up to eight AV cables, per side.

A patented modular design allows cables and AAP modules to be serviced from the top after installation. AC power modules are available for the US, Europe, and other major world markets. To support the growing use of smartphones, tablets, and small laptops in AV presentation environments, optional AC+USB series power modules provide one or two AC power outlets and two USB Type-A or one USB Type-A and one USB Type-C power outlets. US AC power modules are UL/c UL listed. Optional accessories include a routing template to simplify installation and a CableCover for improved cable management and aesthetics.

FEATURES

- ▶ Retractor Brackets hold three Retractor Series or Retractor Series XL cable retraction modules
- ▶ Connectivity Bracket supports up to three single-space AAP modules
- ▶ Cable Pass-Through Bracket supports up to eight AV cables
- ▶ Top surface is available in a black anodized or brushed aluminum finish
