

# Cable Cubby F55 UT

UNDER-TABLE ENCLOSURE FOR AV CONNECTIVITY,  
REMOTE CONTROL, AND POWER

The **Cable Cubby F55 UT** is a perfect solution for board rooms, conference rooms, educational spaces, collaborative environments, or anywhere under-table connectivity is required. It provides discreet, aesthetically neutral access to AV connectivity, power, and control. The Cable Cubby F55 UT can be shared between users or serve as a personal connection point to the AV system within a room or space.

- ▶ Provides under-table access to power and AV connectivity
- ▶ Ideal for applications where furniture surfaces cannot be modified
- ▶ Easily mounts to wood, stone, or other furniture materials
- ▶ Modular design for fast assembly and serviceability

## DESCRIPTION

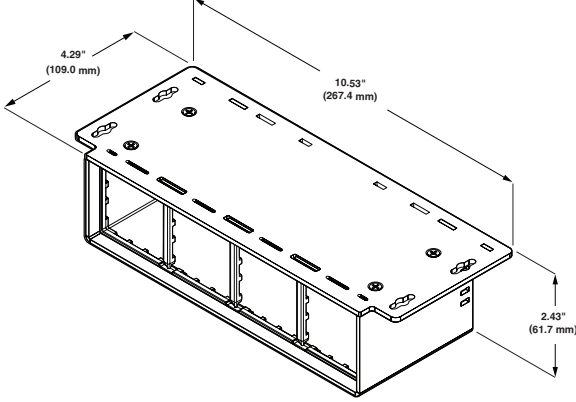

The Extron **Cable Cubby F55 UT** is a modern, clean, and discreet solution to integrate AV technology beneath furniture surfaces. The modular design allows for fast assembly and serviceability. The AV modules can be installed or serviced from the front of the enclosure after it is installed or prepopulated for a speedy onsite installation. It accommodates up to four full-size Extron Flex55 or EU modules such as EBP eBUS® button panels, DTP® transmitters, and other connectivity modules. Half-size and double-size modules can also be integrated. The enclosure supports two Extron Retractor or Retractor XL modules. Flex55 AC power outlets are available for the US, Europe, and other major world markets. The Cable Cubby F55 UT transforms an ordinary room into a technology-rich environment. It is available in a black or aluminum finish.
