CTU 45
UNIVERSAL RJ-45 TERMINATION TOOL

- Designed for use with Extron XTP DTP 24 shielded twisted pair cables and XTP DTP 24 Plugs
- Also compatible with other modular, shielded or unshielded RJ-45 plug types
- One-step operation simultaneously crimps plug contacts and metal strain relief
- Tested for reliable performance to 50,000 cycles minimum

The Extron CTU 45 is a crimp tool for terminating Extron digital twisted pair and other standard networking cables. Designed by AV professionals, for AV professionals, the CTU 45 provides accurate, consistent crimp connections every time.
The Extron CTU 45 is a crimp tool for terminating Extron XTP DTP 24 shielded twisted pair cables with Extron XTP DTP 24 Plugs. The Extron engineered, precision-machined crimp die provides accurate and consistent crimp connections. In a single cycle, the CTU 45 simultaneously crimps the plug contacts and the metal strain relief. The rugged, light-weight ratchet-controlled frame enables minimal, one-hand effort for complete crimp cycles. The user-replaceable die also fits other modular, shielded or un-shielded RJ-45 plug types, and can be retrofitted to Extron CTU 300 BNC Crimp Tool handles. The CTU 45 is ideal for terminating Extron digital twisted pair and other standard networking cables.

### FEATURES

- Designed for use with Extron XTP DTP 24 shielded twisted pair cables and XTP DTP 24 Plugs
- Also compatible with other modular, shielded or unshielded RJ-45 plug types
- Compatible with keyed and non-keyed modular plugs
- One-step operation simultaneously crimps plug contacts and metal strain relief – A single, complete crimp cycle secures the contact pins and the overall grounding shield.
- Color-coded wiring diagram label – Allows the user to quickly identify the correct wiring scheme.
- Rugged, lightweight ratchet-controlled frame – Provides complete crimp cycling, eliminating partial crimps.
- Extron engineered, precision-machined crimp die – Solid steel crimp die ensures accurate and repeatable RJ-45 crimps.
- Tested for reliable performance to 50,000 cycles minimum
- Replacement CTU RJ-45 crimp die, part # 101-025-01 – also fits into the CTU 300 Four-in-One crimp tool frame
