The Extron DTP3 T 101 D is a one-gang decorator-style transmitter for sending HDMI signals up to 330 feet (100 meters) over a shielded CAT 6A cable. The wall-mountable design of this DTP3 transmitter provides the convenience of placing input connections precisely where they are needed.

- Transmits HDMI up to 330' (100 m) over a shielded CAT 6A cable
- Supports computer & video resolutions up to 4K/60 @ 4:4:4
- Comprehensive EDID management
- HDCP 2.3 compliant
- Supported HDMI 2.0b specification features include data rates up to 18 Gbps, HDR, Deep Color up to 12-bit, 3D, HD lossless audio formats, and CEC pass-through
- Remote power capability with DTP3 products
- Compatible with CAT 6A shielded twisted pair cable
- DTP3 output is compatible with HDBase-T™-enabled devices
The Extron DTP3 T 101 D is a one-gang decorator-style transmitter for sending HDMI up to 330 feet (100 meters) over a shielded CAT 6A cable. It supports video resolutions up to 4K/60 @ 4:4:4 and complies with HDCP 2.3. For maximum image quality and minimal latency, all supported video resolutions are transported without compression. The wallplate transmitter includes many Extron technologies, such as EDID Minder® that ensures the source powers up properly and reliably outputs content for display. It can be remotely powered by a DTP3-enabled product over the twisted pair connection, or send power to the connected DTP3 receiver when using the included power supply. The compact wall-mountable design of the DTP3 T 101 D provides the convenience of placing an HDMI input connection precisely where it is needed.

This HDCP 2.3-compliant extender enables the reliable transmission of HDMI signals, supporting CEC pass-through and embedded HD lossless audio formats. In addition, DDC communication of EDID is continuously maintained between a source and display, ensuring direct compatibility and optimal signal transmission between devices. The DTP3 T 101 D transmitter is also configurable for compatibility with HDBaseT-enabled displays.

The transmitter mounts in an included one-gang decorator-style wallplate that fits a standard US one-gang size junction box. The wall-mountable form factor of the DTP3 T 101 D transmitter allows for discreet placement in walls, lecterns, and floor boxes.
