

Extron and Lifesize

WORKING TOGETHER TO ENHANCE COLLABORATION SPACES

Extron AV control can now be part of Lifesize® Video Conferencing. Our work with Lifesize extends Extron control capabilities for the portfolio of Lifesize Icon meeting room systems, providing enhanced control functionality to their award-winning video conferencing solutions.

This collaboration with Lifesize allows our TouchLink Pro touchpanels to provide a familiar Lifesize interface to control audio and camera functionality

and provide additional room control options. In addition to the easy Extron on-screen control interface, occupancy sensors can trigger lighting, shade control, and other devices for no-touch meeting startup and energy savings. Extron and Lifesize scalable collaboration solutions are designed to accommodate a broad variety of meeting spaces and are easily integrated with other Extron architectural, signal distribution, and collaboration products.
