

Extron and Zoom

DELIVERING A SEAMLESS CONFERENCING EXPERIENCE

Extron has entered into an exciting partnership with Zoom Video Communications. This alliance extends Extron control capabilities to any Zoom Room; providing a one-touch user experience for conferencing, collaboration, and now AV room control. There's no more need to switch devices - a single interface on your Apple iPad or Extron

TouchLink Pro touchpanel is all you need to control every conferencing and audiovisual function. This partnership launches a new level of convenience, providing turn-key, centralized control of AV devices, shades, lighting, audio, and much more – all from the familiar Zoom Rooms interface.

KEY FEATURES

- ▶ Extend the capabilities of Zoom Room systems to include AV system control
- ▶ Analytics and management using GlobalViewer Enterprise
- ▶ Effortlessly combine Zoom Rooms with our powerful AV device control options for a unified AV experience
- ▶ Integrate room occupancy sensors to trigger lighting, shade control, and other devices for no-touch meeting startup and energy savings
- ▶ Easily integrates with other Extron architectural, signal distribution, and collaboration products
