

ZRTP Pro Series

ZOOM ROOMS TOUCHPANELS

zoom Certified

The Extron **ZRTP Pro Series** are Zoom-certified 7" and 10" tabletop and wall mount touchpanels. They can operate as either a Zoom Rooms controller or a Zoom Scheduling panel. As a Zoom Rooms controller, users can manage the Zoom Rooms meeting experience. Full featured AV and room control can be added to these using the Extron Control for Zoom Rooms App and an Extron IPCP Pro xi control processor. Place these touchpanels outside a room when running Zoom Rooms Scheduling display mode and they become dynamic room scheduling devices.

- ▶ Certified Zoom Rooms controllers and Zoom Scheduling panels
- ▶ Provides advanced room and AV controls when paired with an IPCP Pro xi control processor and the Extron Control for Zoom Rooms App
- ▶ Support for Zoom Device Management - ZDM
- ▶ 7" and 10" touchpanels available in both wall mount and tabletop form factors
- ▶ Power over Ethernet provides power and communication over a single Ethernet cable
- ▶ Proximity detection allows one-click direct sharing via built-in speakers

DESCRIPTION

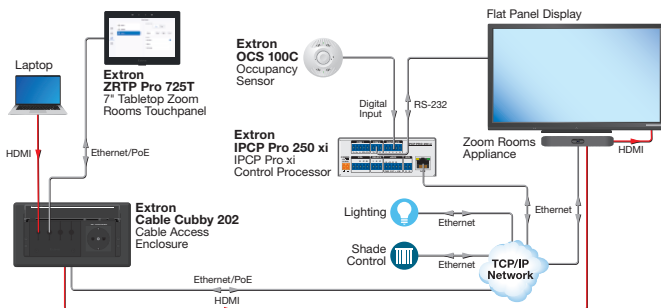

ZRTP Pro Series touchpanels and the Extron Control for Zoom Rooms App enable the deployment of the familiar, easy-to-use Zoom collaboration experience combined with the power of Extron control. They work together to create a fully integrated conference and control solution. Now, from the same easy-to-use interface, you can host a video conference and simply tap the screen for full control of lighting, shades, display power, cameras, and more. When used for Zoom Rooms scheduling, the ZRTP Pro Series can be used for any space. Run these touchpanels in the Zoom Rooms scheduling display mode and place them outside of a conference room for room reservations and at-a-glance room occupancy status.

ZRTP Pro Series touchpanels are available in black and include both wall mount and tabletop form factors. They are compatible with all Extron 7" and 10" mounting accessories which allow them to be mounted in multiple locations and on different surfaces. They have a contemporary design which complements the aesthetics of any space.
