

**Template Name:** Extron Control for Logitech® Tap  
**Current Version:** 1.0.1

The following release notes provide a revision history and overview for this system template and embedded GUI layout. This GUI template provides a starting point for configuring a system that includes the Logitech Tap and an Extron Pro Series control processor.

For complete operating instructions, refer to the user's manual for the specific Extron product or the controlled device manufacturer supplied documentation.

For more information, please call your Extron Application Engineer.

**Updated:** September 25, 2019

**Extron Products Affected:**

Model Name	Version
GUI Designer	1.11.0 or later

User Interface	
Extron Control for Web	1080x700 (Resolution)

---

### SPECIAL NOTES

---

Please refer to the **Extron for Logitech® - User Guide** for detailed installation instructions, available on the Extron and Logitech partner page:

## TECH NOTES

---

**Overview:** The Extron Control for Logitech Tap template is designed to provide a starting point for customization through GUI Designer software. It is intended for Logitech Tap systems with the Extron Control for Logitech application installed.

### Minimum System Requirements:

- **CPU:** Intel® Core 2 Duo or equivalent processor
- **Operating System:** Windows® 7, Windows 8.1, Windows 10
- **HDD:** 400 MB of available hard disk space
- A network connection with a data transfer rate of 10 Mbps/100 Mbps/1000 Mbps recommended
- GUI Designer 1.11.0
- Global Configurator Pro/Plus 3.3.0

### Installation:

1. Download the .gdl file
2. Open the file with GUI Designer 1.11.0 or above.
