

### SMK C TB Series Setup Guide

The Extron SMK C TB Series of tile-bridge ceiling mount kits utilize folding C-rings and modular V-rails.

1. Cut a hole in the ceiling using the cutout template provided with the speaker.
2. Assemble the two V-rail to the extension bar by fitting the tab on one end into the slot of the other end. Open the V-rail until it locks together, as shown below. Repeat this procedure for the other V-rail.

3. Remove the ceiling tile adjacent to the tile with the hole for the speaker.

3. Remove the ceiling tile adjacent to the tile with the hole for the speaker.

4. Place both assembled V-rails on the cut ceiling tile and position them equally on either side of the hole. The ends of the V-rails go over the ceiling grid.
5. Position the C-ring assembly on the two V-rails so that the C-ring is centered over the hole.

6. Secure the C-ring to the V-rails using two screws, as shown above.
7. Refer to the speaker's setup and user guides for further instructions.

See the [Extron Safety and Regulatory Compliance Guide](#) on the Extron website.
