UTR 104 SP • Installation Guide

The UTR 104 Side Panels provide extra security for the Under Table Rack by preventing unwanted contact with system products and cabling. These panels help keep noise at a suitable level for meetings while also providing a clean and subtle aesthetic.
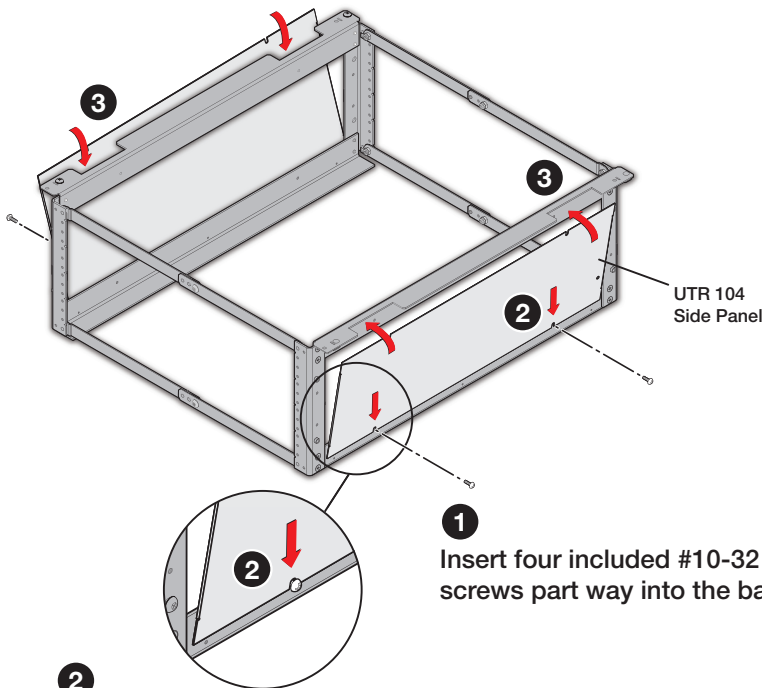

> **NOTE:** The UTR 104 SP can be installed either before or after the main UTR installation.
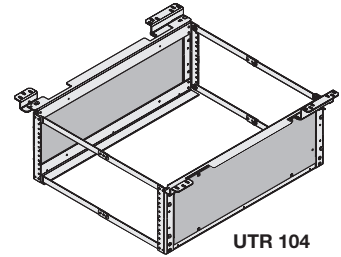

UTR 104

Installing the UTR 104 Side Panels

3 Align the top edge of each panel against the UTR 104 frame.
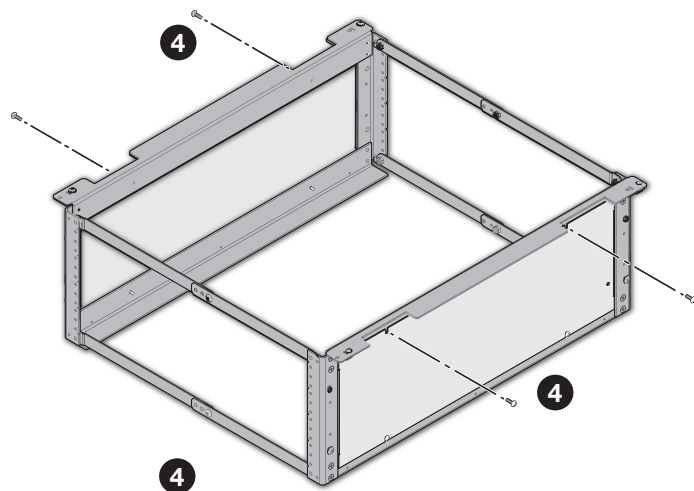

UTR 104 Side Panel

1 Insert four included #10-32 x 0.25 inch Phillips truss-head screws part way into the base of the UTR 104 frame.

2 Slide each side panel onto the mounting screws and secure.
