

## USBA Pro Plenum Cable Series Guide

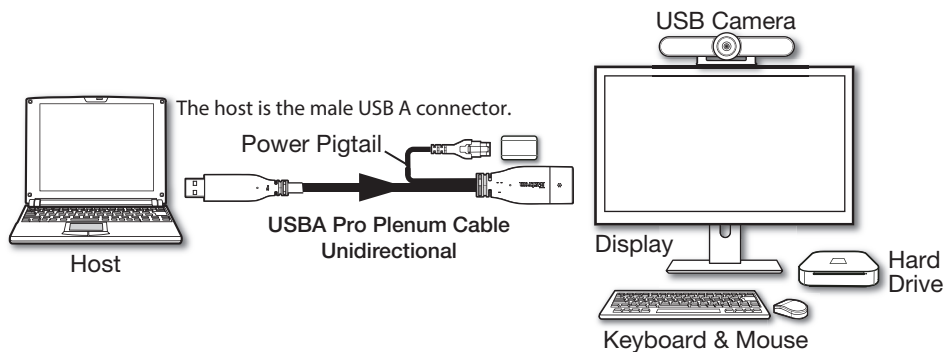

The Extron USBA Pro Plenum cables extend USB 3.2 Gen 1, 2.0, and 1.0 signals up to 65 feet (19.8 m) while maintaining a small and flexible diameter (0.16 inches [4.1 mm]) ideal for an installation with a tight bend radius. The device side connection also features a 6 inch (152 mm) 28 AWG pigtail to provide power insertion up to 900 mA. A blue power LED indicates when host power is available.

These unidirectional, plenum rated cables are offered in five lengths from 15 feet (4.5 m) to 65 feet (19.8 m):

Model	Description
USBA Pro P/15	USBA Pro Plenum Cable M-M 15 feet (4.5 m)
USBA Pro P/25	USBA Pro Plenum Cable M-M 25 feet (7.6 m)
USBA Pro P/35	USBA Pro Plenum Cable M-M 35 feet (10.6 m)
USBA Pro P/50	USBA Pro Plenum Cable M-M 50 feet (15.2 m)
USBA Pro P/65	USBA Pro Plenum Cable M-M 65 feet (19.8 m)

**NOTE:** The USBA Pro Plenum cables are unidirectional from host to device.

## USBA Pro Plenum Cable Series Guide, Continued

**NOTES:**

- The USBA Pro Plenum device side connector has a blue power LED and 6 inch (152 mm), 28 AWG power insertion pigtail.
- Connect host to the male USB A connector.
